**GARDENA smart system**

1. **GARDENA smart app**
   With the free GARDENA smart app for iOS and Android, staying in touch with your garden is at your fingertips. Mowing the lawn and watering has never been so convenient. The app features an intuitive user interface. Mowing the lawn is therefore child’s play and watering the plants happens when they need it; both tasks can be coordinated or controlled remotely whenever you want.

   This means that the range of useful features is very wide. Here is a selection:

   - Getting started: It is so simple to get the GARDENA smart system up and running. The app will automatically lead you through a step-by-step guide. The system can be installed on any tool, and all it takes are a few simple steps.
   - With the GARDENA smart app you have a bird’s-eye view of your garden, while knowing that it is in good hands. At the same time, you can see an overview of all your smart tools and their statuses, and take control at any time if necessary.
   - The intuitive GARDENA smart app shows an overview of all measurements taken by the smart sensors. Feel safe in the knowledge that your plants are in good hands. At the same time, you can see an overview of all your smart tools and their statuses, and take control at any time if necessary.

2. **smart gateway**
   The heart of the smart system for wireless network communication.
   - Can be placed in your living space
   - Simple step-by-step instructions for connecting your Internet router with the network, via Wi-Fi or LAN cable
   - Stable, secure connection of all smart products with safe and proven wireless technology
   - Extensive coverage thanks to integrated high-performance antennas
   - Securely connected – Stable, wireless network with secure wireless technology
   - Works quietly – 60 dB(A), so it will not bother you or your neighbours

3. **smart Irrigation**
   Irrigation times can be flexibly set and adjusted as required at any time using the GARDENA smart app.
   - Stay connected — powerful aerial guarantees wireless connection to the Gateway — even in large gardens
   - Reliable — works with various soil textures
   - Local weather station for plants — measures temperature and light intensity
   - Digital root — measures the soil moisture where it matters most — at the root of the plant

4. **smart mowing**
   Fully automated, reliable, simple-free and even mowing of lawns up to 1300 m², even for large and complex areas, with the GARDENA smart app.
   - Surface capacity: 1000 m² (SILENO) or 1300 m² (SILENO+)
   - Slopes: up to 35 % with the same mowing results
   - Works quietly — 60 dB(A), so it will not bother you or your neighbours
   - Reliable and durable — modern lithium-ion battery technology
   - EasyPassage — the lawnmower independently detects and masters narrow corridors — with no extra programming
   - Sensor control — automatic adjustment of mowing frequency to grass growth
   - Securely connected — Stable, wireless network with secure wireless technology

5. **smart sensor**
   Delivers key information regarding irrigation controller settings via the GARDENA smart app, helping you to create a beautiful garden.
   - Stay connected — powerful aerial guarantees wireless connection to the Gateway — even in large gardens
   - Reliable — works with various soil textures
   - Frost alarm — warns you before it is too cold to operate the Water Controls
